The multifunction switch of the 1995 through 1998 Chevrolet Silverado pickup truck puts the controls for many of the vehicle functions in one convenient location. The problem with this approach is that when the multifunction switch goes bad, the truck may lose the windshield wipers, the cruise control system, the turn signals and the high beam ...

New \$5 cable and it starts, amps are solid at 14.5ish starter turns over and everything is great. The cables on this model (mine is a 1988 Chevrolet K2500 5.7L) for the negative lead to the block can burn out and it will not show any ware or burning. The cable just fries internally and has a slight or no connection at all.
