i have a 2003 honda accord v6 4 door. i had a whine or moan noise coming from my power steering pump. i replace the o-ring on the high pressure power steering hose, located right on top of the power steering pump. there are two 10mm bolts that you take off. take off old o-ring. get new o-ring put some fluid on it, and reinstall.

The power steering system makes steering (at low speeds) easier by pumping pressurized hydraulic fluid. When the fluid runs low, the steering wheel becomes harder to turn, produces creaking sounds, and heats the power steering motor. Overheated, overtaxed motors--including the power steering system--will reliably break.
