

80w flexible solar panel

80W highly durable, lightweight, semi-flexible solar panel reinforced with anodised aluminium and featuring a strong ETFE surface. Made from high quality monocrystalline solar cells designed to get the most out of low light conditions, this panel can still produce a good amount of power even when not in direct sunlight.

1x 80W ETFE Black flexible solar panel . Installation: Can be fixed by adhesive, grommets, zip ties, or velcro; Can be installed without costly structural roof reinforcements. Holes on panels are pre-drilled for fast mounting and securing, perfect for non-permanent installations.

The best way to gauge how many solar panels you need, is to understand and define the power load needed from this system. Power is measured in Watt, and capacity is commonly measured in Watt-hours (multiplying power output in watts by the required number of hours of operation multiplied by a safety factor of 1.5-2).

Nature Power's 80 Watt 12-Volt Crystalline Folding Solar Panels uses the sun's energy to charge your portable power system. Panel is weatherproof, super lightweight and closes for easy storage making these great for Hiking, Camping, Boating, and RV's. Comes complete with Professional grade battery clamps and other cables giving you the option to charge your way.
