Renewable energy comes from unlimited, naturally replenished resources, such as the sun, tides, and wind. Renewable energy can be used for electricity generation, space and water heating and cooling, and transportation. Non-renewable energy, in contrast, comes from finite sources, such as coal, natural gas, and oil.

A renewable energy corporation

The impact of unprecedented investment in renewable infrastructure will likely become more apparent in 2024. Regulatory boosts to renewable energy and transmission buildout could help address grid constraints.

First Gen-EDC is the largest and only 100% renewable energy company in the Philippines, with an installed capacity of 1,484.13 MW. For over four decades, we have continued to deliver clean, renewable, and affordable energy to Filipino businesses and communities.
