A1 Energy is a solutions-driven team of experts providing results in the form of solar PV, CHP and more. From feasibility studies to operation and maintenance, we support industrial clients seeking a more resilient, more efficient operation. Subscribe to our newsletter.

SREC stands for Solar Renewable Energy Certificate.. SRECs are a form of solar incentive based on performance of the system. Solar project owners can earn passive income by generating more solar electricity. Homeowners or industrial business owners can earn a certificate for every 1,000 kilowatt-hours ("kWhs") or 1 megawatt-hour ("MWh") of solar generation.

The past 6 months have shown how volatile the energy markets can be, and change dramatically in a short-period of time, potentially increasing your costs substantially. The information you gain regarding how, when and why energy is used in your facility can be extremely helpful when determining the best utility buying strategies.. There are two main types of energy ...
