This review will cover the most common medication administration routes in nursing along with their abbreviations. Medications can be administered through various routes, and it's important the nurse is familiar with each route. It's also important the nurse is familiar with the "lingo" or abbreviations used to describe each routes. For example, the term P.O. is used a lot in nursing ...

A PV panel, also referred to as a solar panel, is comprised of photovoltaic solar cells connected in a series. PV panels are installed on the rooftop where they absorb photons (light energy) to generate electricity. PV panels are connected in a string to form a complete solar-power-generating unit called a PV array.
