

About reliant solar energy

At Reliant Energy, we understand the importance of harnessing renewable energy for a sustainable tomorrow. As a proud member of the SBS Distribution group, we specialize in providing cutting-edge solar energy systems designed to reduce carbon footprints and offer cost-effective energy solutions to businesses and communities

Reliant has deep Texas roots and a Texas-sized commitment to serving our customers. Throughout our history, we've put customers' needs first, providing power to millions of homes and businesses across the state along with 24/7 customer service. We're ready to serve you now and for years to come.

With the Make It Solar for Business program, Reliant matches up to 1,000 kWh of your monthly electricity usage with Texas and national solar renewable energy certificates every month. That means your electricity usage supports the production of solar energy without installing panels or any special equipment.

Reliant Energy offers a variety of home and apartment energy solutions including solar products, generators, air filter delivery and much more. Welcome back! Pick up where you left off. Confirm your plan and zipcode. Select from 3 of our most popular plans for your zipcode.

While many nations are starting to recognise the vast potential of solar energy - a powerful and extremely beneficial renewable source - there are still some downsides to it. We explore the main advantages and disadvantages of solar energy. You might also like: [12 Solar Energy Facts You Might Not Know About](#). [5 Advantages of Solar Energy](#) 1.

Reliant Energy Retail Services" Solar Payback Plus plan is for homeowners who already have solar panels installed and are switching to Reliant. This plan is similar to the Simple Solar Sell Back plan, where solar energy is first used at home, and any excess goes to the grid. However, the value of the excess energy differs under the Solar Payback Plus plan.

Power your life with solar energy. Rooftop home solar is causing an energy revolution across the country. Solar panels deliver the sun's abundant energy to your home and help lower your electricity bills. Best of all, this clean, ...

Doing your part to support renewable energy in Texas is easy with the Reliant 100% Solar plan. When you sign up, 100% of your electricity usage will be matched with solar renewable energy certificates (RECs). These certificates signify that renewable energy equal to your usage has been generated and sent to the electric grid -- so you're not ...

It's easy to add Make It Solar to your current Reliant electricity plan. Just log in to sign up. When you Make It Solar, nothing changes about your electricity plan or the way power gets to your home. No rooftop panels or devices are needed. We'll match the electricity you use with solar renewable energy certificates (RECs).

About reliant solar energy

Reliant doesn't specialize in renewable energy plans, though some of their plans have 100% renewable energy and some specifically feature solar energy. Their sister company, Green Mountain Energy, is a well-established brand that provides an assortment of green plans.

Reliant Energy was once one of the best Texas electricity providers for solar homeowners due to their full-retail net metering offer. However, this has changed, and solar savings with Reliant are now lower than before. Reliant Energy's Simple Solar Sell Back plan is still one of Texas's best solar buyback plans.

Routinely ranked as a top energy provider in DeSoto, Reliant is an energy provider known for its competitive rates, reliability and outstanding customer service. Welcome back!
