AC solar panels are solar panels that come with a microinverter already attached to each panel. Every solar energy system needs an inverter in order to function properly. Why? Because solar panels convert sunlight into direct current (DC) electricity, but almost all homes use alternating current, or AC electricity, to run appliances.

Wiring PV Panel to UPS-Inverter, 12V Battery and 120-230V AC Load. In this very basic solar panel wiring installation tutorial, we will show how to connect a solar panel to the AC load through UPS/Inverter, charge controller. You will also know how to connect the PV panel to the battery and direct DC load as well.
