Poor connection. Off. No connection. Message 3 of 4 Me too. 0 Kudos Reply. Bigglesworth1. Aspirant Mark as New; Bookmark;

I help a gentleman from time to time with his technology. Recently, he mentioned his Orbi RBR20 stopped working. It is showing a solid amber/red light for the power light and no ring light. No lights blinking, just solid as soon as turned on. I used the TFTP to upload the latest firmware but that wasn't successful.

Page 75 Nighthawk AC1900 WiFi VDSL/ADSL Modem Router Model D7000v2 (Continued) Field Description Mode From the Mode menu, select one of the following modes: o Up to 54 Mbps. Legacy mode. This mode allows 802.11n, 802.11g, and 802.11b devices to join the network but limits 802.11n devices to functioning at up to 54 Mbps.
