As of 2024, Advanced Power Solutions (APS) introduces itson batteries, targeting a younger demographic and reshaping the landscape of the mobile energy industry. With a focus on local production and renewable energy, itson is not just a battery.

Clean and green power. Our green commitment is evident in the actions we take, such as the windmill on our Belgian factory premises, which compensates for 25% of our energy consumption in Belgium. Additionally, we have built a small solar farm for our Polish factory, which generated in 2023 - 23 MWh.
