

Alstom is also responsible for the assembling and commissioning the machines. Once in operation in 2018, the Obervermuntwerk II pumped-storage power station will have an output of 360 MW and will be Illwerkes second-largest power station. The power plant is designed as a parallel to the existing Obervermuntwerk.

Alstom was awarded a contract worth 57 million 1 by The Hainan Pumped Storage Power Generation Co. Ltd. to equip Hainan Provinces first pumped storage power station. Alstom will provide three 200 MW units - pump turbine, motor generator with other key equipment - to the 600 MW new plant. The first unit is due to enter commercial operation on ...

With this system, buckling of the core is avoided, and it is required for pumped storage schemes with high thermal dilatations. VPI insulation system and slot ripple spring. The reliability of the stator winding is determined primarily by the quality of its insulation. The Micadur insulation system has been used by Alstom for more than 40 years.
