Ametek® HDR Power Systems designs and builds custom power supplies to suit our clients" specifications. We manufacture and assemble all components to each power supply item. We make multizone power control systems, panelboards, SCR power controls and switchboards.

P& QR Power & Quality Recorder; Meters. JEMStar High Accuracy Revenue Meter; Ci20 Revenue Meter; Communications Products. UPLC Universal Power-Line Carrier; BB Focus; FOCUS T1/E1 Multiplexers; FOCUS/BBF Channel Modules/Interfaces; TCF-10B FSK Power-Line Carrier; TC-10B ON/OFF Power-Line Carrier; LPA 50/100W Linear Power Amplifier; Alarm ...

Prior to that, he served as Vice President and General Manager, AMETEK Power Systems and Instruments, since 2008. He joined AMETEK in 1997 as a Technical Support Engineer and was promoted to Regional Sales Manager in 1998. From 2000 to 2005, Mr. Ciampitti was part of the Power Instruments business, first as

Ametek power systems

Director of Sales and Marketing and ...

With strong brands, a broad product portfolio, exceptional precision power conversion and control expertise, proven power system integration capabilities and deep applications knowledge, AMETEK Programmable Power is your source for programmable power supplies, precision data acquisition instruments, and more.

AMETEK HDR Power Systems designs, develops, manufactures and certifies custom power controller solutions for the Nuclear industry. The combined experience of HDR, Robicon and Halmar electronics reaches hundreds of nuclear installations around the world. This experience originates from the acquisition of Halmar and Robicon Group (HRG) by AMETEK ...

of several key power system quantities along with an overview of the applications that they're intended for. 1 Power System Measurements - Fundamentals of Windowing Measurement of power system quantities such as phasors, frequency, harmonics, etc. involves a few fundamental steps - 1. Sampling and acquisition of line voltages and currents. 2.

Headquartered in Columbus, OH, AMETEK HDR is a recognized world-class manufacturer of electronic equipment for specific markets and special applications. Ametek HDR SCR Power Controls are high quality, industrial grade products designed to operate reliably for many years in process environments.

AMETEK HDR Power Systems is headquartered in Columbus, Ohio and a recognized world-class manufacturer of electronic equipment for specific markets, including, but not limited to Heat Treating, Glass and Silicon Production, Melt Furnaces and Coatings, as well as Nuclear and special applications. AMETEK HDR offers both SSR and SCR Zero- and Phase ...

The TR-3000 captures high speed transients and long term system disturbances with enough memory to give you a complete view of the system disturbance. While simple and quick to set up and diagnose a fault; it has the power to analyze complex system anomalies. Multi-Function Capability The TR-3000 takes the place of several devices:

The AMETEK Integrated System Monitor, ISM-1, is a modular compact sequence of events recorder system offering the flexibility ... power.sales@ametek HEADQUARTERS AMETEK Power Instruments 50 Fordham Road Wilmington, MA 01887 Tel: 978.988.4903 Fax: 978.988.4990

Are you looking for an innovative, reliable alarm monitoring system? AMETEK Power Instruments' Series 90B and AN-3200 Annunciators are specifically designed to provide advanced alarm notifications for the most demanding of alarm management applications, such as electric utility and industrial process facilities. AMETEK Power Instruments continues to be voted the ...

AMETEK Power Systems & Instruments ...

The DPF also allows for battery testing with reverse power flow without the need of a loaded inverter. For the remote monitoring of your power quality system, UPSView can be included with the DPF to provide real-time health and status of your Solidstate Controls equipment. Alpine Power Systems is a value-added reseller of AMETEK products.

AMETEK Power Instruments serves the world-wide electric power generation and distribution industries with our advanced instruments and monitoring systems. We offer an extensive sales and service network around the globe including the US, UK and Asia. We can provide fault recorders, power line carriers, high accuracy revenue meters, alarm management and much ...

AMETEK PDS (formerly Power & Data Systems) is a leading global supplier of components and systems for power generation and distribution, motion control, data acquisition and cockpit instruments to the aerospace and defense industry. All our customizable products take advantage of our robust heritage in aviation generators, generator control ...

The Spacecraft Power Bus Simulator provides power stimulus to a payload subsystem from three independent power sources. AMETEK Programmable Power is poised to extend its more than 60 years of success serving the aerospace and defense industry, offering standard and custom test solutions for equipment destined for platforms ranging from ...

Our accomplished team of business architects has a common goal: to ensure our client's power quality needs are met. Whether it be through our field sales staff, customer service, engineering, marketing, operations or finance capabilities, AMETEK Power Quality Solutions will work with you to ensure quality electrical power protection and monitoring to keep your business in business.

Electric power generation is a major market segment for AMETEK Power Instruments. We are a leader in advanced engine sensors and monitoring systems for gas turbines used in electric power generation. Also, we are a long-time supplier of temperature, speed, cable harness and flame sensor products used by both the electric and nuclear power ...

AMETEK's HDR Power Systems specializes in the design, manufacturing, and distribution of high-quality power supplies for a wide range of applications. Our extensive product portfolio includes both standard and custom power supplies, tailored to meet the specific needs of our diverse customer base. 1. DC Power Supplies: We offer a comprehensive ...

The Sorensen(TM) Intelligent-Bidirectional Energy AMplified (i-BEAM) Series is the newest addition to the AMETEK Programmable Power portfolio of high-power testing solutions. The new i-BEAM series features full DC source and sink capabilities with power levels from 60 kW up to 1.3 MW. The i-BEAM series is fully scalable up to 650 kW and beyond up to 1.3 MW with parallel systems.

Ametek power systems

Electromechanical - a differentiated supplier of automation and precision motion control solutions, and highly engineered electrical interconnects, specialty metals and thermal management systems; AMETEK has been publicly traded on the NYSE since 1930 and is a component of the S& P 500. To learn more about AMETEK, Inc., visit

Subsidiary VTI Instruments provides products and systems used to monitor and record data that characterizes the physical integrity and performance of aircraft, engines, and other large structures, and automate the functional testing of complex electronic systems. ... AMETEK Programmable Power's success comes from fostering a positive, welcoming ...
