We offer a range of products to meet all density levels for wiring closets, small, medium, and large data centers. Our highly efficient, scalable solutions with active response controls offer predictable cooling for your needs today and in the future.

Safeguard your gaming and home theater systems with full equipment protection that helps eliminate lag and file erosion. UPS power and data security that gets the job done Companies around the world and within every industry rely on products from Schneider Electric to keep their data center running.

December 1st Price Increase for APC by Schneider Electric. Schneider Electric has announced a price increase of up to 6% for most products and services, effective December 1st. While most price changes will be modest, Smart-UPS Online, data center cooling equipment, racks and enclosures, and rackmount PDUs will see larger increases.

When it detects a failure with the UPS or battery, the APC Smart-UPS Online automatically switches over to utility power without dropping the load. The APC Smart-UPS On-Line provides high-density, double-conversion online power protection for servers, voice/data networks, medical labs, and light industrial applications.
