Test Report E200291.00 Aquatron Robotic Technology Ltd. Page 1 of 52 FCC ACC M Ver 1.2 28 February 2011 DATE: 30 January 2020 ... Aquatron Robotic Technology Ltd. Power Supply with BT AQ11091W1 FCC ID: VQBAQ11091W1 This report concerns: Original Grant: X ... Automatic swimming pool cleaner system: 1. Robotic cleaner. 2. Float cable. 3. Power ...

It is unlikely that both Motors (Drive Motor - Ref.# 1.15 and Pump Motor - Ref.# 1.14) are experiencing mechanical problems. In most cases the issue lies with something that is hindering the flow of electricity from the electrical outlet to the Power Supply (Figure 4) or through the Floating Cable (Ref.# 3.1) to the Aquabot itself.

Robotic Systems Ltd.. Setup instructions, pairing guide, and how to reset.

Aquatron is one of the world's leading manufacturers of robotic pool cleaners. Our flagship brand AuqaBot
was created to make the consumer's pool experience more enjoyable and simple. For over 30 years, we have
consistently found new and innovative ways to help keep pools cleaner and healthier....

The Aquatron pool cleaners feature a intelligent protection system : If the unit is put into action out of the

Aquatron robotic systems power supply

water, the automatic security mode protects the whole of the unit including pump and current transformer... If the low current transformer is put into use without the pool cleaner it is automatically stopped after 10 to 15 seconds.

Our world-beating expertise, innovative technologies and high-quality products enable us to supply optimum water quality to all sectors and environments, and to ensure the highest level of safety, hygiene and health in our daily contact with water, the elixir of life. ... BWT is the world's leading supplier of systems for the generation ...

In essence, the power supply is the heartbeat of your robotic system, and its reliability and efficiency determine how well your entire operation functions. The Impact of Power Supply Reliability on Robot Performance. A reliable power supply is not just about avoiding the inconvenience of outages or robot downtime.

exactly with the key slot on the socket of the power supply (fig. 3a). Plug the power supply into a grounded outlet. Ensure that the electric outlet has been properly grounded (fig.3b). Press the "ON" button on the power supply. The light will glow indicating that the system is " ON " and the pool cleaner will start the cleaning cycle.

Always remember to turn the power supply "OFF" and unplug it from the power outlet before removing the cleaner from the pool. **WARNING:** The cleaner must not be used when people are in the water. ... System Overview The robotic cleaner sweeps the pool floor and walls to collect dirt and debris into its internal filters. This user manual ...

We are your complete source for all "things" Aqua Products, Inc. including: OEM replacement parts, service and to purchase a new swimming pool cleaner. We carry all parts for Aquabots, Duramax, Breeze, Aquamax XL, Ultramax XL, Xtreme, Supreme and Rover.
