

Power-One, Inc. will present both its largest and its smallest PV inverters at Solar Power UK: the AURORA ULTRA central inverter system with an output of up to 1.5 MW and the improved AURORA MICRO ...

The new Aurora 300-watt micro-inverter offers something new to Power-One customers. The ability to individually link all modules within a specific installation is an alternative to the traditional Aurora string inverters Power-One is famous for. Micro-inverters have some advantages over string inverters.
