

Backup generator house

Fuel is stored in an underground tank or supplied by your home's natural gas. Standby generators are larger than portable generators (7,500 watts to 48,000 watts or more), and they're more expensive, running anywhere from \$5,000 to more than \$25,000. Standby generators need to be professionally installed by a licensed electrician.

Attach the generator's electrical cable from the generator to your house. Step 8. Connect the electrical and gas connection to the generator's rear part. Safety tips 1. Maintain distance from the house. Generators should be placed far away from the house. Some generators are certified to be kept as close as 18 inches from your house. 2.
