Moreover, it has the ...

The Generac PowerPact is a basic but well-equipped home generator and an excellent budget buy. Designed to serve as a backup generator for the most essential appliances, this model includes an automatic transfer ...

Fuel is stored in an underground tank or supplied by your home's natural gas. Standby generators are larger than portable generators (7,500 watts to 48,000 watts or more), and they're more expensive, running anywhere from \$5,000 to more than \$25,000. Standby generators need to be professionally installed by a licensed electrician.

Best Home Standby Generator: Generac Guardian 7209 Built in the United States, the Generac Guardian 7209 is the gold standard for home standby generators. Boasting up to 24kW of power, the Guardian can be set up to run on either natural gas or liquid propane as a fuel source (but you must decide this at installation time).

There are two wattage ratings manufacturers provide--peak and running. Peak wattage measures the initial surge of power when the generator is first turned on. Running wattage measures the generator's power level the rest of the time. Running wattage is a better indicator of power. Most portable gas generators produce 4,000-10,000 watts.
