I had an iPhone 4s for a while, when I dropped it and broke the screen. I would still power on as I could see some lighting on the screen. I ordered a new screen for the 4s. Following a tutorial I did the replacement correctly and with the right tools. After doing the repair and reassembling the phone correctly, the phone would not power on.

When the iPhone 4/4S is connected to the Juice Pack Plus, a battery symbol will appear on the screen and you will hear a chirp from the iPhone 4/4S; this indicates that the iPhone 4/4S is charging and/or using the power from the Juice Pack Plus rather than from the iPhone 4/4S itself. Talk Time: up to 8 hours on 3G or up to 16 hours on 2G
