For that, you'll want a battery backup, also known as an uninterruptible power supply (or UPS). Editor's Note: ... First, think about all the systems in your home or office that need the extended power protection supplied by a UPS unit, to stay online in the event of power outages, or both. Every reader will have a different setup, for the sake ...

Comparatively, partial-home battery backup systems usually store around 10 to 15 kWh. Given that power outages are infrequent in most parts of the country, a partial-home battery backup system is generally all you'll need. But, if your utility isn't always reliable for power, whole-home battery backup may be the way to go.
