A whole-house generator, or a standby generator, is a backup electrical system that automatically supplies power to a home during a power outage. Unlike typical generators for houses powered by gas or propane, EcoFlow offers huge 90kWh capacity solar-powered solutions that keep your home running smoothly, rain or shine.

So a 1,000Wh battery has a usable capacity of around 666Wh. Keep this in mind when selecting the right capacity for your needs. It's a good idea to get a bigger battery than you need. As you consider what battery capacity suits your needs, also think about the type of battery. Most solar generators use sealed lead acid batteries.
