Screw your 12V lightbulb into your lamp of choice and plug in the lamp. Hide your outlet and battery pack by placing them inside the lamp base (if there's room), mounting them under the table with command strips, or placing them in a decorative basket. I opted for the decorative basket: And that's how to make a battery-powered outlet!

With plug-in doorbell kits, installation is a snap. Simply mount the push-button transmitter to the outside door and plug the door chime receiver into a standard wall outlet. Most manufacturers allow you to mix and match battery-powered and plug-in ...
