That be quiet! System Power 9 500W is the perfect choice for building powerful and cost-effective systems at a reasonable price ;

Yes, the PSUs from Bequiet are pretty good. I have the same Power Supply myself, but the 400W variant. They're barely audible while still being very reliable. If you aren't sure if you have enough wattage for your system you can check on bequiet's website. They have a PSU calculator which also suggests their PSUs based in your build.
