The Belkin Residential Gateway (RG) Battery Backup REV B, BU3DC001-12V has been designed to maintain your AT& T U-verse® Residential Gateway and your AT& T U-verse® Voice service should a short disruption to your commercial power service occurs. For more information about this product, click here. Technical Specifications

The replacement battery has color-coded terminals (the red portion is indicated by + and the black one is -). Connect the black wire to the black terminal and the red wire to its corresponding terminal as well. Re-install the battery door properly. You should now have replaced your Belkin BU3DC001-12V Battery Backup.

Output on this is labeled as 12 volts DC at 3 amps max. I have a modem downstairs that isn't AT& T U-Verse but does take 12 volts DC. However, its power supply is 1.5 A max. Am I right in thinking that this is not problematic as the ...

BELKIN RG Battery back-up ModelBU3Dc001-12v is an excellent backup device for my TP-Link brand wireless router WDR-3600 and would probably work well with any wireless router or access point which uses a ac wall adapter that plugs into the back of the router that is output rated 12volt DC with negative ground and with 1-3 amps max.

However, its power supply is 1.5 A max. Am I right in thinking that this is not problematic as the modem will only ever draw a max of 1.5 A off its power supply, meaning the backup will never send 3 amps across the cord?
