BOEM Postpones Oregon Offshore Wind Energy Auction (September 27, 2024). Final Sale Notice. On August 29, 2024, the Department of Interior announced the Final Sale Notice (FSN) for offshore wind leasing on the Outer Continental Shelf (OCS) offshore Oregon.

Passed by the Oregon Legislature in 2021, SB 333 directed the Oregon Department of Energy to study and report on a number of elements related to renewable hydrogen and how it might fit into the state's existing renewable energy and greenhouse gas reduction policies and goals, including:

The Oregon Department of Energy has selected 21 recipients for a total of \$12 million in Community Renewable Energy Grant Program funds. The program supports planning and construction of renewable energy or energy resilience projects for Tribes, public bodies, and consumer-owned utilities.

The City will adopted its Strategic Energy Management Plan in Fall 2020, which describes actions the City will take to achieve its fossil fuel reduction goals established in Resolution 3044. The ...

Amazon is committed to reaching net-zero carbon by 2040, and--as part of that commitment--we're on a path to powering our operations with 100% renewable energy by 2025. As of today, Amazon has already reached more than 85% renewable energy globally across our offices, fulfillment centers, stores, and Amazon Web Services (AWS) data centers.

The Oregon Energy Security Plan is intended to help the state plan for, respond to, and recover from events that disrupt energy supply (electricity, natural gas, liquid fuels, etc). Through efforts to quantify and mitigate risks to energy infrastructure, ODOE is working to ensure a reliable and resilient supply of energy at an affordable price.

Community Renewable Energy Grant Program; Rural & Agricultural Energy Assistance Program; Solar for All; ... The Oregon Department of Energy collects electricity resource data from our state's utility providers. The information helps us - and Oregonians across the state - track power sources and better understand the environmental effects ...

The Oregon Department of Energy has selected 39 recipients to receive a total of \$12 million in Community Renewable Energy Grant Program funds. The program supports planning and construction of renewable energy or energy resilience projects for Tribes, public bodies, and consumer-owned utilities.

1 day ago· Bulletin file. City of Bend residents have the opportunity to weigh in on a Community Climate Action Plan that local leaders say will make Bend a statewide leader in reducing ...

Oregon's renewable energy portfolio standard (RPS) requires that at least 50% of the electricity sold in Oregon come from renewable-sourced generation by 2040. 72 In 2021, Oregon's legislature passed the Clean

Bend oregon renewable energy

Energy Standard (CES), which set clean energy targets. The CES calls for an 80% reduction in greenhouse gas emissions from a baseline by ...

The city of Hillsboro, Portland Public Schools, and Hillsboro School District have taken on the Better Buildings Challenge, a commitment to reduce the energy use of their entire building portfolios by 20% within 10 years and are making progress toward their energy reduction goals. As of 2021, public-sector Challenge partners have cumulatively saved 133 trillion Btus of ...
