

Best power system fir lb7

There are a lot of plug-and-play tuning devices for the LB7. Some of them are "chips" that basically piggyback the ECU, such as the TS MP8, and others are flash tuning devices commonly referred to as programmers.

System: 150,000 miles: 240,000 km: Replace Automatic Transmission Fluid: 25,000 miles ... Not all fluids are created equal though. The best way to assure your LB7 Duramax gets the right fluids and oil is to stick with OEM recommended fluids. We recommend using OEM GM or ACDelco Fluids for everything. ... Power Steering (Approximate).81-1.32 ...

At stock power levels, and up to where you want to make, a 100GPH should be sufficient, but there's no problem picking up the 165 for like \$30 more ... SAC is considered the best injector and doesn't have major LB7 faults to them. The 45s can be tuned and cleaned up to perform like stock, and then you have the capability to add more fueling ...

05 3500 ccdrw lly, complete lbz banks ram-air intake set-up with with super scoope, egr deleted profab intake elbow, diamond eye 4" duals, diamond eye down pipe and no kitty efi by full throttle customs, edge insight cts for gauges,lbz mp. and fuildamper .pcv reroute,right and left side boost tubes, banks techi cooler ppe ported fitting, afe rear diff cover ...

If you leave the power output at factory settings and maintain the equipment, then it will last a long time. But you have to realize, 100hp isn't small potatoes. Yes it is when you're talking big power or performance-wise, but a stock truck turned up 100hp is a big deal on stock components. My LB7 is over double what it was from the factory.

Best tuner for lb7? ... Lookin for good power but also better mileage and some smoke as well? 08 LMM cc/lb drw 4x4 4 inch straight, edge cts, efi by rob at atp, alligator trans line,rail plug,pcv reroute,egr blocker plate. ... 12.31@108.57 On stock turbo and fuel system Thanks to, Big Dipper, Efilive, Calvert, Precession Converters, Nick ...

If you're looking to add a bit of extra power to your Duramax LB7, a tuner or programmer is hands-down the best bet. Tuning will unlock the biggest horsepower gains for a relatively inexpensive price, making it the best bang ...

The HTT promax (stainless version) is about the best turbo for your money, still tows well, supports 600hp . and is one of your cheaper options . i would not worry about your intercooler just yet alot of \$\$ for not much power, great part for egt reduction though . and the htt promax will come with a new wastgate on the turbo . there are other options but this one is ...

The LB7 put out a segment-best 300 hp and 520 lb-ft of torque. The LB7 Duramax was considered

Best power system fir lb7

revolutionary at the time and utilized a turbocharger, intercooler, and direct-injection. One of the biggest highlights was the use of common rail technology developed by Bosch, preceding Dodge by two years and Ford by seven years.

2001 2500hd 4wd extended cab ls, s& b cai, 4" stainless steel exhaust, efi live from atp trucks, edge cts, ppe boost valve, banks intercooler pipe, air dog ii 165, rebuilt tranny with suncoast kit, transgo shiftkit and billit torque converter, new upgraded tailshaft, pump rub fix on transfer with new aluminum tail shaft, new tow mirrors, new gage heavy duty front and rear ...

#1 · Dec 24, 2013. I'm in need of a new cp3. At the same time I'm going to install 45% injectors (I purchased them 6 months ago and just didn't install yet) Currently I run a stock lb7 cp3 with a ...

The LB7 Duramax diesel is a direct-injected, turbocharged, intercooled, four-valve-per-cylinder V-8 that produces 300 hp and 560 lb-ft of torque. Starting from a blank sheet of paper, the 6.6L Duramax is recognized to date as the fastest diesel development program in the world.

The LB7 along with most diesels has a few limiting factors which are fueling, block and internals, and transmission. Transmission: 500whp limit for the Allison 1000, requires a built trans to go much beyond it. ZF6 manuals can handle over 600whp with just a clutch upgrade

There are numerous performance monitors available out there for your LB7, but some are definitely better than others. Here are the ones we would consider. The Edge Insight CTS3 is the latest diesel monitor offering unparalleled parameter monitoring capabilities and the best user interphase of any monitors we have seen. Check out our review [here](#).

The best way to keep the CP4.2 happy (aside from reverting back to a CP3) is to ensure air doesn't make it into the high-pressure fuel system. This means an electric lift pump system should be added, which maintains a constant supply of fuel pressure for the CP4.2 to use. A means of monitoring low-pressure fuel supply is also highly advisable.

2004 2500HD Crewcab LB7, Banks Sixgun w/speedloader, EDGE Insight gauge set, AEM Brute force intake, PPE Boost valve, PPE CP3 high flow kit filter head and test block bypass, Diamond eye 4" pipe w/Hushpower muffler & 5" tip, built trans w/Triple disc torque converter, Raybestos Red Devil clutch packs, PML deep pan,Transgo SR shift kit, AMSOIL ...
