About This Product. Hook up your Blink Outdoor, XT and XT2 with the Wasserstein 360 degree adjustable solar panel. Designed to help keep your security camera fully powered at all times, eliminating the stress of regularly dismounting your camera for charging and restrain recording failures caused by dead batteries.

Key Takeaways on Powering Blink Cameras with Solar. While Blink cameras can't directly utilize solar panels, with the right solar battery charger setup, you can supply renewable solar energy to keep the cameras running indefinitely. The key points are: Blink cameras require removable batteries charged externally.

How to Install Blink Solar Panel. The installation process for the Blink Solar Panel is relatively straightforward. Here's a step-by-step guide to help you set up the solar panel to power your Blink camera, floodlight, or video doorbell: Step 1: Choose an Optimal Location. Select a location with abundant sunlight throughout the day.

Blink camera with solar panel

No, the attached micro-USB cable for the Blink Solar Panel Mount and the Blink Outdoor (3rd Gen) camera connection is not removable. You can purchase a 13 ft (4 m) weatherproof extension cable (sold separately) if you wish to detach and mount the Solar Panel up to 15 ft (4.50 m) away from your camera.
