My bose solo tv sound system has stopped working. I have. 2.13.2016. Aric. 15+ years in the field. Owner of AV Installation, OEM and Repair company. 66,285 Satisfied Customers. I lost my remote to the Bose Solo Sound Bar. Is there a way to turn it on without the remote? and if so can I ...

I have a 6 year old Bose Solo TV Sound System that has stopped working, apparently because of a power problem. I've checked power couplings and changed remote control battery without success. I have noticed that when I would unplug and then plug in the unit to the wall socket, I would hear an audio "tone" from the unit.

Step 1: Place the system A. Move your TV aside and turn it so you can see the connection panel. B. Place the Solo system where you had your TV. Placement guidelines: o The Bose Solo system is designed to fit under TVs that weigh no more than 40 lb (18 kg) and have bases no wider than 20" (508 mm) and no deeper than 10" (260 mm).

Whether you are using your Bose speaker to listen to music, TV, movies, or anything else, you want it to work properly every time you try to power it on. ... If you are using an older Bose speaker or one that is hard-wired to your receiver or audio system, the problem is most likely with your stereo setup rather than with the speaker itself ...

Sometimes, the TV may default to internal speakers or a different audio output, causing the Bose speaker to appear as if it is not working. Select the Bose speaker as the primary audio output device to ensure that the sound is directed to the correct source. If the issue persists, consider power cycling both the TV and the Bose speaker.

Bose's Soundlink Bluetooth speakers have consistently been some of the best-sounding ones available. However, every once in a while, something doesn't function quite right and it needs to be reset or paired again. Here's what you need to know to reset a Bose Soundlink speaker and what a reset will do to it.
