At the RIL Annual General Meet in 2021, Chairman and Managing Director Mukesh D. Ambani announced an investment of over Rs 75,000 crore (USD 10 billion) in building the most comprehensive ecosystem for New Energy and New Materials in India to secure the promise of a sustainable future for generations to come.

Non-renewable fossil fuels (coal, crude oil, and fracked gas) supply people with about 80% of all energy consumed globally and in the United States. Their burning releases carbon dioxide, a major greenhouse gas that's accelerating climate change. Nuclear energy is a second type of non-renewable energy that makes up only 2% of global energy, but 8% in the U.S.
