Irwin International Inc. recently acquired California Power Systems, moving its operations from San Leandro, Calif., to Corona, Calif. Irwin International, which also owns Aircraft Spruce & Specialty Co., will operate Aircraft Spruce and CPS as separate divisions in the same 62,000-square-foot warehouse in Corona. Jim Irwin and Mike Stratman

California's non-CO2 emitting electric generation categories (nuclear, large hydroelectric, and renewables) accounted for 58 percent of total generation, compared to 54 percent in 2022. California's wide variety of climate and weather systems play a large role in how the various generation resources shape the annual power mix.

About the California ISO. The ISO manages the flow of electricity across high-voltage, long-distance power lines that make up 80 percent of California's and a small part of Nevada's grid. The nonprofit public benefit corporation also ...

More Power, More Fun. The Powrachute Airwolf was created for pilots who loved the Pegasus, but who wanted the additional power provided by the Rotax 912 Engine. With tandem seating and power enough to lift most any two people in some of the most challenging conditions, the Airwolf is a very versatile powered parachute.

I recently bought two videos, 503 rebuilt and gearbox rebuilt from California Power Systems (Airwolf). They were very educational. Major repair is recommended at 150 hours and it recommended crank shaft replacement at the 300 hours. The gear box video has additional component tips on maintenance. For now I only have cylinder head temps on ...

The Airwolf 3D Wolfpack is incredibly excited to find a new home in our very own building located at 11208 Young River Avenue in beautiful Fountain Valley, CA. Since we left Erick and Eva's garage back in 2012, we've experienced explosive growth and found ourselves needing to move twice, needing larger and larger buildings to accommodate ...

California Power Systems, Corona, California. 7 likes. California Power Systems is the western U.S. regional Rotax Service Center for many years, and offers Rotax engines, parts, and other Ultralight...

The California Independent System Operator said there have been upgrades in power storage and transmission since last summer, including four times the amount of battery storage from the current 500 megawatts on its system to 2,000 megawatts by August.
