Usually a 395 Watt solar panel has 144 half-cut solar cells with measurements similar to 72 cell solar panels. The dimensions of an average 395 Watt solar panel are about 79" X 39" X 1.4". The weight of a 395W solar panel is approximately 48.5 lbs.

Canadian Solar made solar cells in CS6R-395MS two times smaller than the standard size, thus reducing power loss and improving low-light behavior. Given its size and weight, CS6R-395MS efficiency of 20.2% is quite impressive. Canadian Solar provides an industry-leading 25-year performance warranty and a 12-year product warranty. 395 W power output
