Electrical engineer Kristin Salomon also joined the team to bring Solar Cat to life. Inspired by the panda-shaped solar arrays in China, Persaud wanted to create something whimsical that instantly made visitors smile. The exhibit centers around a 140-watt cat-shaped solar panel that is mounted to a window.

In this newly revised, bestselling backlist title, beginning readers and budding astronomers are launched on a wild trip to visit the now eight planets in our solar system (per the International Astronomical Union's 2006 decision to downgrade Pluto from a planet to a dwarf planet), along with the Cat in the Hat, Thing One, Thing Two, Dick ...
