This document provides the detailed Technical Specifications for the mechanical, electrical performance and environmental characteristics of the PremiumTower™ an on-line 3 phase UPS family. Technical Specifications in this document are designed to provide answers to tender filing out and end user requirements.

Swiss based UPS manufacturer, CENTIEL SA, has introduced its new PremiumTower stand-alone Uninterruptible Power Supply in the UK through its UK subsidiary, CENTIEL Ltd. The PremiumTower is another high quality solution from the same R& D team that brought us CumulusPower, CENTIEL's world-class leading three-phase modular UPS system.

PremiumTower is CENTIEL's stand-alone product with the same Swiss build quality and similar innovative technology seen in CumulusPower. "When floor space is a premium, there is now no need to compromise on performance," continues Lecuona. "PremiumTower provides up to 415 kW per square meter of energy, while delivering efficient and ...

Three independent power converters increase system reliability and provide power continuity even in cases of power component failure. Integrated autonomies and matching battery cabinets. Up to 160 battery blocks can be fitted in the PremiumTower (10 to 60 kW), reducing the total footprint and optimizing costs.

The interface provides Dry-Output ports by means of spring terminal blocks for a cable section between 0.2 and 1.0 mm<sup>2</sup>, allowing maximum 30W(VA) switching power by rated voltage and current of 125VAC/60VDC/1A.
