

Clark howard solar power

Waikoloa Solar + Storage can generate up to 30 megawatts and is supported by a 120 megawatt-hour battery storage system. The energy produced is expected to power nearly 14,000 homes, said Sandra Larsen, AES Hawaii market business leader. The solar farm is the Big Island's first and largest solar plus storage project.

Clark shares money philosophies courtesy of Humble Dollar. Also in this episode, Things are rapidly changing in the solar energy industry. Clark has an update on how to approach roof solar and the microgrid community solar advantage. Money Philosophies: Segment 1; Ask Clark: Segment 2; Solar Power Update: Segment 3; Ask Clark: Segment 4

Leased solar is a bad idea. If you want to sell your home, the solar company who owns the equipment must approve your purchasers, making it difficult to sell. Owning solar can be a good choice if you live in an area with lots of sun. The efficiency of solar systems have improved dramatically in the last few years.
