Wilson,D, Rowley, PN,Watson, SJ, Utilising a Risk-Based Systems Approach in the Due Diligence Process for Renewable Energy Generation, IEEE Systems Journal, 5(2), June 2011, . 223-232 Wood,SR, Rowley, PN, A techno-economic analysis of small-scale, biomass-fuelled combined heat and power for community housing, Biomass and Bioenergy, 35(9 ...

As well as our superb range of cleaning equipment, we are a trusted supplier of used commercial cleaning equipment, from floor scrubbers, to pressure washers and vacuum cleaners. We can deliver used equipment to customers across Loughborough, Derby, Nottingham and the surrounding areas.

Use daily to keep your business clean, hygienic and pleasant for your customers and staff. Choose from upright vacuum cleaners or tub vacuum cleaners. Each vacuum cleaner has specific features that make them suitable for particular applications. These include patented removal systems, robust bumpers and revolutionary flexible suction tools.

1.8 billion people have access to electricity but still cook with biomass. Load shedding, weak grids, affordability of electricity, accessibility of liquid petroleum gas (LPG), tradition, perceptions, and a lack of suitable cooking appliances all act as barriers to scaling up the use of electricity or gas for cooking - clean cooking. We already know [...]

Our Fuel Cell Power Modules (FCPMs) for UAVs provide clean, efficient DC power from only hydrogen and ambient air, with zero emissions. With a higher energy-to-mass ratio than traditional battery systems, hydrogen fuel cells can provide commercial UAVs with over three times the flight endurance, allowing you to maximise productivity, minimise downtime and achieve more in a ...
