

Company happenings first solar inc

By most other metrics, including the vital one of being able to produce enough clean energy to fight climate change, First Solar still has a way to go to catch up with its Chinese counterparts. It produced 12 gigawatts of panels in 2023, compared to 79 gigawatts for Shanghai-based Jinko Solar Co.

It serves developers and operators of systems, utilities, independent power producers, commercial and industrial companies, and other system owners. The company was formerly known as First Solar Holdings, Inc. and changed its name to First Solar, Inc. in 2006. First Solar, Inc. was founded in 1999 and is headquartered in Tempe, Arizona.

In addition to the Louisiana facility, First Solar commissioned its third Ohio factory earlier this year and is expected to complete its new facility in Alabama and the expansion of its existing Ohio footprint in 2024. The company also expects its new facility in India to begin commercial production in the fourth quarter of this year.
