First launched in 2010, the E-Stim Systems 2B has proved to be one of the most powerful and versatile electroplay power boxes in the world. If you are looking for the best, then seek out the 2B. With 17 program modes including the ever ...

Sound Driven E-Stim. With basic sound triggered E-Stim controllers, even the higher priced units, the sound input triggers a simple E-Stim pulse. With the ABox Mk2, the sound signal itself drives the output signal, so the output is similar, both in amplitude (loudness) and frequency (tone) to the input signal, giving a much more pure response.

Congratulations on purchasing an E-Stim Systems Series 2B(TM). Given sufficient care your 2B(TM) unit should give you many years of erotic electro-stimulated pleasure. Before ... page 14 for details on how to switch your 2B box to the high power level. And if you want even more power, then connect our external power supply unit.

Q: How much power does it have? A: The ErosTek ET232 has more power than a TENS unit and slightly lower maximum output than our ET312B. Its routines are designed for erotic e-stim which makes it far better than a common TENS unit, and it's easy access to modes, levels, and speed (MA) makes it super-easy to operate, even for beginners.
