

# Ecoflow ups

An affordable and user-friendly entry-level solution for integrated home energy systems using the EcoFlow DELTA Pro, or EcoFlow DELTA Pro Ultra. Experience simple, safe, and sustainable home backup power.

Use the EcoFlow app to control and monitor RIVER 2 Series, even from afar. View charging levels, customize settings, and adjust charging speeds, all from the convenience of your phone. [LEARN MORE &gt;](#)

Experience seamless power continuity with EcoFlow DELTA 2 Max's updated 20 ms UPS feature. When a blackout hits, its swift auto-switch keeps your devices running, from your fridge to your CPAP, making outages barely noticeable.

With EcoFlow's X-Boost technology, DELTA Max can power heavy-duty devices up to 3400W. That means during a power outage or blackout, you can continue to power your fridge, dryer, and more. That's the industry gold standard for a portable power station of this size and capacity.

EcoFlow DELTA Pro Ultra is a residential power backup system designed for both extended outages and daily use. With an unrivaled capacity of 6kWh, 7200W max output?, and 5.6kW solar input, a single unit can run your entire home.

UPS vs. Portable Power Station: Which One Should You Get? Now that we've gone over the main differences between UPS and PPS, you might be wondering which one is right for you. The answer depends on your needs.
