In early November, Eos unveiled a deal to supply developer Hecate with 1 gigawatt-hour of zinc batteries, worth approximately \$250 million, for projects in Colorado, New Mexico and Texas. "Upon the completion of several customary closing conditions, purchase orders from Hecate are expected in the next six to nine months," the announcement stated.

EDISON, N.J., Dec. 14, 2023 (GLOBE NEWSWIRE) -- Eos Energy Enterprises, Inc. (NASDAQ: EOSE) ("Eos" or the "Company"), a leading provider of safe, scalable, efficient, and sustainable zinc ...

As regular readers of Energy-Storage.news will likely know, Energy Vault's recent earnings calls have painted a very different picture to long-duration rivals ESS Inc and Eos", for the simple fact that instead of focusing solely on its proprietary gravity-based storage tech, the Swiss-American startup has pivoted to also work in the lithium ...

Eos Energy Storage, the aqueous zinc battery startup, listed on the Nasdaq stock exchange Tuesday after CEO Joe Mastrangelo virtually rang the opening bell. The 12-year-old company now goes by the name Eos Energy Enterprise, Inc. and trades under the symbol EOSE.

Eos Energy Enterprises is a manufacturer of a proprietary zinc-based battery storage technology, and Energy Vault, well, Energy Vault had a sort of revolving crane on a huge concrete tower raising and lowering 35 ...

Eos Energy Storage spent 12 years building up a technology it says can rival the dominant lithium-ion batteries for storing grid power. ... Eos and B. Riley hope their SPAC operation will bring in ...

Owners of 37 percent of the SPAC's shares opted to redeem, or cash out, prior to the merger with Eos. After subtracting fees, the transaction is on track to net Eos around \$130 million, CEO Joe Mastrangelo told GTM Tuesday.

1 - a 30% investment tax credit to the buyer for installation of energy storage 2 - a 10% tax credit to the buyer for domestic content 3 - a 10% tax credit for installation of the storage in an energy transition zone. 4 - EOS gets a \$35/kWh production tax credit for cell manufacturing 5 - EOS also gets a \$10/kWh production tax credit for ...

Eos Energy Enterprises is listing its stock on the Nasdaq, going public via a Special Purpose Acquisition Company, better known as a SPAC. We welcome in Eos CEO Joe Mastrangelo to discuss why his company decided to bypass the traditional IPO route, and how Eos' patented Zinc battery can potentially disrupt the power storage industry.

Eos Energy Storage, the aqueous zinc battery startup, listed on the Nasdaq stock exchange Tuesday after CEO Joe Mastrangelo virtually rang the opening bell. The 12-year-old company ...

Today, we had an electrifying mid-day surprise from B. Riley Principal Merger Corp. II (BMRG), which announced that it had signed a Letter of Intent with Eos Energy Storage, an established provider of long-duration energy storage focused on providing a domestic solution to a global need: low-cost, safe, and environmentally friendly energy storage. ...

Back in August 2023, Energy-Storage.news Premium reported that the three companies and Stem Inc, which also listed after a SPAC merger, had seen their share price fall on average by 80% since listing by that time. As Energy-Storage.news covered Eos, ESS Inc and Energy Vault's financials collectively for Q3 2023, we will continue to do so here.

But beyond that, an investment in Eos is a bet on developers choosing to stray from the mass-produced lithium-ion technology that supplies almost all today's grid battery projects. So far, EOSE is holding around the \$10.50 share price where it opened Tuesday morning, on a day when the Nasdaq overall is down.

Stockholders for an energy storage company sued their firm's board of directors alleging they misled investors when bringing their corporation public through a SPAC merger. Eos Energy Enterprises Inc., formerly known as B. Riley Principal Merger Corp. II (BRII), renamed itself after merging with the energy storage firm Eos
