Please click on "Login" to access ESS. In the future, skip this page and go straight to the ESS Home page. As an active employee out on a continuous full-time medical and/or personal leave such as Family Medical or Paid Parental Leave, your City network access may have been disabled for the duration of your leave period.

An ESS stores electrical energy for a single building's backup power or it can be part of a utility's (Seattle City Light's) larger power grid backup. They are most commonly large batteries, but they can also be a thermal or mechanical system and are frequently used with many residential photo-voltaic (solar panel) systems.
