WUXI, China, Sept. 5, 2023 /PRNewswire/ -- ET Solar Inc. ("ET Solar"), a California-based corporation, is excited to announce our global re-branding as EliTe Solar, effective immediately. With over ...

In 2005 ET Solar began producing solar panels. The company employs about 3000 people. The PV industry professional media authority BNEF has rated ET Solar as Tier 1 solar panel manufacturer in the whole world since 2012. After a merger and acquisition (M& A) in 2018, ET Solar became a government-owned company. In 2018, ET Solar also gave the global PV market its new series of off-grid product and began E...

After nearly 20 years in global markets and 15 years as a supplier of solar modules in the U.S., California-based ET Solar Inc. is officially re-branding as EliTe Solar, effective immediately. As of August 2023, EliTe Solar owns and operates 3.5 GW of cell/module manufacturing capacity in Vietnam and Cambodia.

While climate change requires significant deployments of all renewable energy resources, solar has emerged as a leading and most preferred energy choice available. Without precedence, they are self-learning from the present-day challenges to charter the new work order of scalable growth and an equitable, sustainable, thriving workforce.

ET Solar has announced its global re-branding to EliTe Solar, effective immediately. With over 15 years of experience as a trusted supplier of solar modules in the US market and nearly 20 years in global markets, the California based company is updating its brand to reflect the "elite" nature of its products and services.

Founded in 2005, ET Solar has delivered more than 7.2 GW of solar modules worldwide. As a global leading provider for photovoltaic module and smart energy solutions, ET Solar is providing optimized solar solutions to meet the needs of worldwide residential, industrial, commercial and utility clients.

While ET Solar was founded in 2005 and, according to them, has over 3,000 employees, it hasn't expanded to become one of the giants that dominate the solar panel manufacturing industry. ET Solar claims to have reached 1 gigawatt of panel manufacturing at the end of 2011.

Based in Overland Park, Kansas, Zenernet is a residential solar energy startup with a mission to "accelerate energy independence for all." Despite being a relative newcomer to the solar power industry, the company appears to be positioned for success, expecting to achieve \$4 million in revenue by the end of 2019.. The Zenernet Experience
