System overview [] Diagram of the central "White Sun" solar system as depicted in the opening scene of Serenity. The orbits of 20 planets are visible. According to The Complete and Official Map of The Verse, the Verse is also known as 34 Tauri (2020), although the real 34 Tauri is not a star, but an object accidentally cataloged as a star by astronomer John Flamsteed in ...

The Blue Sun system would be quite a challenge to reach - it does orbit in the opposite direction to the others, and on the Complete and Official Map of the Verse, it appears to me that the orbits of the Blue Sun's planets are highly inclined compared to the rest of the solar system, although this may just be the way the map is drawn.

Firefly universe Map. POSTED BY: LEAM UPDATED ... Hi all, i'm preparing a Firefly adventure, is there any simple picture of the whole firefly solar system? It would be most helpful to give the players an idea of where they are and where are they going. ... Bellerophon Ezra Jiangyin Sihnon Hansel Cook's "Speculative System Map" is up to Version ...
