How FPL SolarNow Works. For \$9 per month, or about 30 cents a day, you can join other customers supporting the sustainment of solar energy in local communities and inspire future generations to learn about the benefits of solar. Here's how it works: When you enroll in the FPL SolarNow program, \$9 will be added to your monthly FPL bill.

FPL works hard to bring you energy savings solutions that help your business cut down costs and enhance its operations. Installing a Thermal Energy Storage (TES) system is one way in which you can reduce your energy bill while keeping your facility cool and comfortable for employees and customers.

FPL has more than 5060 solar energy centers statewide. Each of tThese centers clean energy efficiency improvements generate enough emissions-free energy to power 750,000 homes annuallyapproximately 15,000 homes per year while eliminating emissions equivalent to taking 14,000 cars off the road each year..

Take the first step in understanding your solar options. You can continue without logging in and use an estimated usage. By clicking "Estimated Usage" below, you acknowledge that you are leaving, will be redirected to Clean Power Research's WattPlan Advisor tool, a third party site not affiliated with FPL, and are accepting the ...

In 2014, FPL received approval from the Florida Public Service Commission to launch a three-year voluntary solar partnership pilot program. The program, now known as FPL SolarNow, provides FPL customers with an easy way to support the sustainment of solar arrays in local Florida communities, without increasing costs on customers who are unable or choose not to ...

Fpl solar power rebate

No, FPL does not offer rebates or other solar incentives. However, FPL is invested in supporting Florida solar. In 2016, FPL built three 74.5 MW solar arrays, each of which have the capacity to generate power for about 15,000 homes.

FPL expects the funding cap for new solar PV rebates to be reached quickly due to growing interest in distributed solar generation. Interested customers should begin exploring options as soon as possible to ensure that they have time to identify a contractor and gather the required information before the application period opens on June 21.

From 2011 through 2013, these programs cost FPL customers nearly \$30 million, including \$16.5 million to provide rebate subsidies for about 900 customers' individual small-scale solar-panel installations - the least economical form of solar photovoltaic (PV) power.

"By unanimously approving FPL SolarTogether - the largest shared solar program in the country - the FPSC has, once again, reminded the world that Florida is committed to leading by example when it comes to adapting to changing times and meeting customers' needs while taking a long-term view to keep costs down," said Silagy.

Enjoy monthly bill credits. Every month, you'll receive bill credits based on the solar energy your subscription produces. This amount is multiplied by the credit rate \$0.036. After year one, the ...

FPL hasn't let up on its crusade against customer-owned solar, as evinced by its foul birthing of SB 1024, which was shunted to a state lawmaker, along with thousands of dollars in donations and rushed through both houses of the state legislature.
