

# Fuji energy

Fuji Electric now aims to become a leading-edge company in "energy and the environment" by building upon our core platform of five technology fields which unlock the potential of electricity--energy, industrial systems, social systems, power electronics, and electronic devices.

Energy. We are strengthening our power plant business by offering Fuji Electric's "energy creation," which is centered on thermal and geothermal power generation. We are working to expand orders for thermal and geothermal plants, focusing on Asian and Near and Middle Eastern markets. We are also increasing our sales of fuel cells.
