

Unlock the power of large-scale solar projects with SMA. Discover SMA Solar Technology, a global specialist for solar inverters and PV technology with solutions for home owners, business owners and large scale PV plants.

Do you want to be a part of the energy transition and help shape the future? If so, come and work for us as a student assistant and support our departments with a range of activities from development to commercial areas, and earn the money you need to finance your studies.

SMA is situated in Niestetal close to Kassel. We are based in the middle of Germany and are easy to reach. By car or very comfortably by rail via the ICE-Station Kassel-Wilhelmshöhe. From there, you can reach SMA by taxi or by public transportation. Take the Autobahn A7 Frankfurt-Hannover and exit at "Kassel Nord".

PV electricity produced in Germany. Information: The PV power chart provides data with a delay of approximately two hours. If you, as an energy industry company, are interested in real-time values, we'd be happy to prepare a bid for you. Please contact us.

Up to 80% lower energy costs*. Increase self-consumption of solar power through intelligent energy management. Save money and live more greenly without sacrificing comfort or convenience. Combine all household loads in a single system. * For implementation of all the energy system's applications.

As a leading global specialist in photovoltaic system technology, SMA is setting the standards today for the decentralized, digital and renewable energy supply of tomorrow. More than 4,000 SMA employees in 20 countries have devoted themselves to this task.

Find a training opportunity near you! Scroll our training catalog below to view and register for upcoming seminars. Use the search function to find specific trainings. Use the filters to select trainings by language, country, training format (face-to-face or online) or a combination of these filters. Please click the appropriate checkbox to ...

SMA offers you the perfect services to reap the benefits of your PV system over its entire service life. Secure your PV system now using an extended warranty or improve your yields through regular maintenance or through the complete PV system ...

Munich will witness the launch of a unique combination consisting of the 1-phase 2-in-1 Sunny Boy Smart Energy inverter and the SMA Home Storage battery. The hybrid inverter features exceptional performance and fast battery charging capability.

SMA Solar Technology AG (SMA/ISIN: DE000A0DJ6J9/FWB: S92) will expand manufacturing into the US

German solar company

with a projected start of production in 2025. SMA is working with multiple states and potential partners to evaluate the ...
