

Global Lithium-Ion Battery Market Overview: Lithium-Ion Battery Market Size was valued at USD 55.4 billion in 2023. The Lithium-Ion Battery market industry is projected to grow from USD 59.7 Billion in 2024 to USD 123.4 billion by 2032, exhibiting a compound annual growth rate (CAGR) of 4.72% during the forecast period (2024 - 2030).

The global market for lithium-ion battery is projected to have a considerable CAGR of around 14.6% during the forecast period. Lithium-ion batteries are rechargeable batteries in which lithium ions move from cathode to anode during discharge ...

Global Lithium-Ion Battery Market Outlook. The global lithium-ion battery market attained a value of USD 42.90 billion in 2023. The market is further anticipated to grow at a healthy CAGR of 10.8% during the forecast period of 2024-2032 to reach USD 107.67 billion by 2032. Read more about this report - [REQUEST FREE SAMPLE COPY IN PDF](#)

We expect investments in lithium-ion batteries to deliver 6.5 TWh of capacity by 2030, with the US and Europe increasing their combined market share to nearly 40%. Explore [S&P Global Search](#)

Chapter 2, to profile the top manufacturers of Lithium-Ion Battery, with price, sales, revenue and global market share of Lithium-Ion Battery from 2018 to 2023. Chapter 3, the Lithium-Ion Battery competitive situation, sales quantity, revenue and global market share of top manufacturers are analyzed emphatically by landscape contrast.

The global lithium-ion (Li-ion) battery market is expected to surpass 150 billion U.S. dollars by 2032, compared to a market size of approximately 50 billion U.S. dollars in 2023.

Lithium-Ion Battery Market Size Overview. The global lithium-ion battery market size was valued at USD 40.9 billion in 2021 and is projected to attain a value of USD 115.1 billion by 2028, growing at about 11.9% CAGR during the forecast period. The report analyzes the lithium-ion battery market's drivers, restraints, and the impact it has on demand during the forecast period.

Battery demand for EVs continues to rise. Automotive lithium-ion (Li-ion) battery demand increased by about 65% to 550 GWh in 2022, from about 330 GWh in 2021, primarily as a ...

The global battery market size was estimated at USD 118.20 billion in 2023 and is projected to grow at a CAGR of 16.1% from 2024 to 2030. The market is experiencing rapid growth, driven ...

Dublin, June 21, 2024 (GLOBE NEWSWIRE) -- The "Lithium-ion Battery Market: Trends, Opportunities and Competitive Analysis to 2030" report has been added to ResearchAndMarkets' offering. The ...

Global lithium ion battery market

Global Lithium Ion Battery Market Scope. The Lithium ion battery market is segmented on the basis of chemistry, component and application. The growth amongst these segments will help you analyse meagre growth segments in the industries and provide the users with a valuable market overview and market insights to help them make strategic ...

The global lithium-ion battery market size reached US\$ 51.0 billion in 2023. The market is projected to reach US\$ 139.6 billion by 2032, exhibiting a growth rate (CAGR) of 11.84% during 2023-2032. The growing demand for lightweight and portable electronic devices, rising traction of electric vehicles (EVs) around the world, and increasing ...

Global Lithium-Ion Battery Market Size, Share, Forecast: By Product Type: Lithium Cobalt Oxide, Lithium Iron Phosphate, Lithium Nickel Manganese Cobalt, Lithium Manganese Oxide, Others; ...

The global lithium-ion battery market size was valued at USD 70 billion in 2022 and is expected to surpass around USD 387.05 billion by 2032 with a registered CAGR of 18.70% from 2023 to 2032. The Asia-Pacific lithium-ion battery market size will reach at USD 52.65 billion by 2024.

The global lithium-ion battery market was valued at some 40.5 billion U.S. dollars in 2020. It is projected that the market will grow at a GACR of 14.6 percent, reaching the size of almost 92 ...

The global lithium-ion battery market is expected to reach US\$ 55.22 billion by 2032 up to US\$ 55.22 billion in 2023, expressing a Compound Annual Growth Rate of 13.80% between 2024 and 2032. This Rapid Growth Rate from increased demand for electric vehicles, renewable energy storage and portable electronics.

The lithium-ion battery market is set to grow by USD 448.8 billion by 2028 and finds itself on the cusp of an AI-powered market evolution. This is driving transformation and expanding possibilities, with market growth being driven by increasing demand for small-sized electronic devices and power tools and augmented demand from consumer electronics and legislative ...

Rising EV battery demand is the greatest contributor to increasing demand for critical metals like lithium. Battery demand for lithium stood at around 140 kt in 2023, 85% of total lithium demand and up more than 30% compared to 2022; for cobalt, demand for batteries was up 15% at 150 kt, 70% of the total.

Yes, the global lithium-ion battery market is expected to grow at a CAGR of 11.5% during 2024-2032. The lithium-ion battery industry is growing at a steady pace owing to the increasing adoption of lithium-ion batteries in various devices, such as pacemakers, digital cameras, smartphones, laptops, watches, and portable power packs, among others.

It is projected that between 2022 and 2030, the global demand for lithium-ion batteries will increase almost seven-fold, reaching 4.7 terawatt-hours in 2030. Much of this growth can be attributed to the rising popularity

of electric vehicles, which predominantly rely on lithium-ion batteries for power.

Comprehensive data and analysis on the expanding market for lithium-ion battery cell manufacturing. Our experts provide detailed coverage of batteries to help all stakeholders understand the battery industry - from manufacturers to investors - keep track of the latest developments and understand the battery market outlook to make strategic decisions and ...

The global lithium-ion battery market is expected to reach US\$ 55.22 billion by 2032 up to US\$ 55.22 billion in 2023, expressing a Compound Annual Growth Rate of 13.80% between 2024 ...

Global lithium-ion battery recycling market value 2023-2033; Lithium-ion battery reuse and recycle revenue 2030, by country; Other statistics that may interest you Lithium-ion batteries worldwide.

[220+ Pages Latest Report] According to a market research study published by Custom Market Insights, the demand analysis of Global Lithium Ion Battery Recycling Market size & share revenue was ...

The Lithium-Ion Battery Market grew from USD 98.84 billion in 2023 to USD 110.80 billion in 2024. It is expected to continue growing at a CAGR of 12.19%, reaching USD 221.16 billion by 2030.

The global EV battery market size was valued at USD 132.6 billion in 2023 and is expected to reach USD 508.8 billion by 2033, at a CAGR of 14.4%, during the forecast period 2023-2033. ... In the EV battery market, lithium-ion batteries have the largest market share. Several decades have passed since the development and refinement of lithium-ion ...

The global lithium ion battery recycling market size was valued at USD 3.79 billion in 2023 and is projected to grow from USD 4.50 billion in 2024 to USD 23.21 billion by 2032, exhibiting a CAGR of 22.75% during the forecast period. The lithium-ion battery recycling market in the U.S. is projected to grow significantly, reaching an estimated ...

The Global Lithium-ion Battery Market reached USD 56.8 Billion in 2023 and is projected to witness lucrative growth by reaching up to USD 143.88 Billion by 2030. The market is growing at a CAGR of 14.2% during the forecast period (2024-2030).

The global lithium-ion battery market size was valued at \$46.2 billion in 2022, and lithium-ion battery industry is projected to reach \$189.4 billion by 2032, growing at a CAGR of 15.2% from 2023 to 2032.

Regionally, the Asia Pacific is estimated to dominate the global lithium-ion battery market in 2020. The regional growth is accredited to the presence of prominent original equipment manufacturers (OEMs) of batteries in the region. A lithium-ion battery (LIB) is a rechargeable battery having a high energy density.

Among the major Lio-ion battery manufacturing companies, Albemarle Corporation (ALB) generates the

highest profit, with a market value of 18.1 billion U.S. dollars. 4 Other key players, such as LG Energy Solutions from South Korea, Japan-based industrial giant Toshiba Corporation, and Arcadium Lithium PLC, are the frontrunners in Lio-ion ...
