

Greenpole power solutions

Power Cabinet's environment; Genset and Battery Statuses; How it works: with GreenPole, energy is stored in batteries of different technologies and utilized depending on the most economical, efficient and custom-made strategic relay between power provided from the grid, genset, solar panels and other renewable energy sources

Under normal condition, the grid AC power supply to rectifier module feeds the telecom loads and charge the battery pack; When the AC power fails, rectifier module will stop and the telecom equipment is fed from the battery to ensure the Telecom equipment working. When the AC power is recovered, the switch over happens and the rectifier module ...
