SC series solar charge controller is an advanced maximum power point tracking controller for the off-grid PV system. it can be used for the 12/24/48V battery system to achieve the fast charge and maintain battery health, expand the lifespan.

With the solar modules installed on the rooftop, the Growatt SPF 5000 ES inverter allows the customer to use electricity generated by themselves. Moreover, the system equipped with HOPE Lithium Batteries can back up electrical power, bringing them reliable solar power when needed.

Growatt provides a wide range of intelligent PV products, designed to cater to residential, C& I, and utility-scale systems. With smart string PV inverters that can handle a capacity range from 0.75kW to 253kW, we offer versatile solutions for all your energy needs.

This is a multifunctional split-phase output off grid solar inverter, integrated with a MPPT solar charge controller, a low frequency pure sine wave inverter and a UPS function module in one machine, which is perfect for off grid backup power and self-consumption applications.
