To make a hanging model, you can use straws or wooden dowel rods (like for grilling kebabs) to connect the planets to the sun in the center. You could also use a hula-hoop toy to form the main structure, suspend the sun

Hanging 3d solar system model

in the middle (connect it to two sides), and hang the planets around the circle.

Position the planets around the sun in the correct order. Find a cardboard box. The planets in your solar system model will hang down inside this box. You'll need to fit nine planets plus the sun into this, so make sure you have enough room. This should be at least as large as a men's shoebox, which is roughly 15" x 10" x 5" (36 x 25 x 13 cm).

The solar system consists of the sun plus eight planets. At one point, it was viewed as having nine of them, but in 2005, Pluto was reclassified as a dwarf planet. A dwarf planet is a body that orbits around the sun but shares its orbit with other celestial bodies. The solar system has several other dwarfs in addition to Pluto.
