

Inova rechargeable lithium ion battery

The rechargeable INOVA T4R Long Throw is the ultimate long-range flashlight, providing a far-reaching 1,000-meter beam you'll have to see to believe. ... Alternatively, the flashlight's rechargeable Lithium-Ion battery can be removed and charged directly via USB-C cable (not included). Shockproof, crushproof and weatherproof (IPX4), T4R Long ...

The 18650 battery is a lithium-ion cell classified by its 18mm x 65mm size, which is slightly larger than a AA battery. They're often used in flashlights, laptops, and high-drain devices due to their superior capacity and discharge rates. 18650s come in both flat and button top styles, and usually boast 300-500 charge cycles.

With the ability to project a beam over a quarter mile (450 meters), the T11R is a precision high-performance pioneer in the flashlight industry. Its rechargeable lithium ion battery makes it a powerhouse and boasts an impressive 14,000 mAh capacity allowing the ability to easily charge other devices like phones, tablets, satellite phones, and ...
