

Is vivint a good solar company

Service: Many of the comments, both good and bad, among customer reviews of national solar companies are about service. Look for a national company that has a track record of good customer service ...

Vivint has had a lot of ups and downs over the years and has had something of a rocky reputation for a while. When customers have good experiences with Vivint, they seem to be extremely good. But when they have bad experiences . . . let's just say the pendulum swings severely in the opposite direction.

For a solar panel system, Vivint Solar will typically cost between \$11,000 and \$25,000. However, these costs will vary depending on a few key factors. Vivint does not offer any pricing information on its website. This is because of the fact that the price is going to change considerably from one area to another.

There are, however, quite a few reviews for both Vivint Solar and Sunrun. These companies will function separately from one another, but when it comes to the installation process, overall costs, and customer service, expect to see quite a few similarities between the two.
